(Green Bay, WI) – March is Problem Gambling Awareness Month. March 8th is Gambling Disorder Screening Day. The Wisconsin Council on Problem Gambling has partnered with Creative Calm Counseling, LLC to have a Gambling Disorder Screening at the Wisconsin Council on Problem Gambling’s office from 10am to 4:00pm.

“The Brief Biosocial Gambling Screen is a three question screen,” says Blozinski, Executive Director, Wisconsin Council on Problem Gambling. “It only takes a minute or two to answer the questions. For someone who is on the fence on whether or not they think they have a gambling problem, this screen could make a difference in their life.”

We want people to be more aware of the signs of problem gambling and know that there are counselors and programs available to help.”

The warning signs of problem or compulsive gambling include:

- Always thinking or talking about gambling
- Spending more time or money on gambling than you can afford
- Repeated attempts to cut back or stop gambling
- Gambling to escape stress or other problems
- Gambling to win back your previous losses
- Gambling until all of your money is gone
- Lying to family members and others about your gambling activity
- Borrowing money or stealing money to gamble
- Neglecting work, family, household responsibilities or personal needs because of gambling

WCPG also holds its annual statewide Problem Gambling Conference in March. The 23th annual conference is set for March 17th - 18th at the Milwaukee Marriott West, Waukesha, WI.
